

# Aida - the helpful AI

connecting information and people worldwide

Introducing Aida, the cutting-edge artificial intelligence technology that enables IKEA employees to quickly and easily find and analyze relevant documents within the SharePoint app.

Aida uses algorithms to:  
categorize and summarize important information,  
making it simpler to access critical data,  
review documents, and  
connect people worldwide.

With Aida's user-friendly interface, employees have an accessible tool to count on, streamlining the process and reducing the time and effort required. With each interaction, Aida's performance will improve incrementally, unlocking even greater insights and returns for IKEA employees.

Start improving your business by experiencing the wonders of Aida today.
